AIML'29 | Artificial Intelligence & Machine Learning Student | Python
| C++ | SQL | Machine Learning | Data Structures & Algorithms |
Building AI Solutions | Open to Internships & Collaboration
Kolhapur, Maharashtra, India

Summary

I am a second-year Artificial Intelligence and Machine Learning (AIML) engineering student with a passion for building technology that solves real-world problems. I enjoy transforming ideas into practical applications and continuously improving my technical skills through projects, hackathons, and hands-on learning. Currently, I am strengthening my knowledge of Python, C++, SQL, Data Structures & Algorithms, Machine Learning, and Web Development. I have developed projects including a Carbon Footprint Calculator, an Obstacle Avoiding Robot, and I am currently building an AI-powered College Bus Tracking System to improve transportation management. Beyond academics, I actively participate in technical events, complete industry-recognized certifications, and explore emerging technologies. I believe in continuous learning, teamwork, and creating solutions that have a meaningful impact. I am open to internships, research opportunities, open-source contributions, and collaborations in Artificial Intelligence, Machine Learning, and Software Development.

Education

Ashokrao Mane Group of Institutions- Rapidly Growing Institute in Western Maharashtra

Bachelor of Technology - BTech, Artificial Intelligence · (August 2025 - May 2029)

New College, Kolhapur

HSC · (August 2022 - February 2024)

Adarsh Prashla kolhapur

Highschool · (June 2020 - March 2022)
